A NOTE ABOUT FORWARD LOOKING STATEMENTS

From time to time, we make written or oral forward looking statements within the meaning of certain securities laws, including in this Management Proxy Circular, in other filings with Canadian securities regulators and in other communications. All forward looking statements are based on our beliefs as well as assumptions based on information available at the time the assumption was made and on management's experience, results and perception of historical trends, current conditions and expected future developments, as well as other factors deemed appropriate in the circumstances. Forward looking statements are not facts, but only predictions and generally can be identified by the use of statements that include phrases such as "may", "will", "believe", "expect", "anticipate", "intend", "plan", "foresee", "potential", "enable", "continue", or other comparable terminology. These statements include, but are not limited to, statements made in the "*Compensation Discussion and Analysis*" section of this Management Proxy Circular and other statements about our operations, financial condition, risk management priorities, targets, ongoing objectives, strategies and outlook for 2018 and subsequent periods. By their nature, these statements are not guarantees of our future performance and are subject to risks, uncertainties and other important factors that could cause our actual performance to be materially different from that projected. Factors that may adversely impact our forward looking statements include risks relating to: fluctuations in market prices; availability of water, wind and natural gas required to generate electricity; the regulatory and political environments in the jurisdictions in which we operate; environmental requirements and changes in, or liabilities under, these requirements; changes in general economic conditions including interest rates and foreign exchange rates; operational risks involving our facilities, including unplanned outages at such facilities; disruptions in the transmission and distribution of electricity; effects of weather; natural and man-made disasters; the threat of domestic terrorism and cyber-attacks; equipment failure; industry risk and competition; fluctuations in the value of foreign currencies; need for additional financing; structural subordination of securities; counterparty credit risk; insurance coverage; our provision for income taxes; legal proceedings involving the Company; reliance on key personnel; and development projects and acquisitions. Readers are urged to consider these factors carefully in evaluating the forward looking statements and are cautioned not to place undue reliance on forward looking statements. The forward looking statements included in this document are made only as of the date hereof and we do not undertake to publicly update these forward looking statements to reflect new information, future events or otherwise, except as required by applicable laws. In light of these risks, uncertainties and assumptions, the forward looking events might occur to a different extent or at a different time than we have described or might not occur.

Important Notice regarding Proxy Materials and Notice and Access Procedures

The Company has elected to use the notice-and-access provisions under National Instrument 54-101 and National Instrument 51-102 (“**Notice-and-Access**”) for distribution of the meeting materials to Shareholders. Notice-and-Access allows the Company to post electronic versions of its proxy-related materials on the System for Electronic Document Analysis and Retrieval (“**SEDAR**”) and on its website, rather than mailing paper copies to Shareholders. Shareholders will receive a Notice-and-Access notification and a form of proxy (or voting instruction form if applicable) and may choose to receive a paper copy of the annual meeting materials in accordance with the instructions set forth below.

The Meeting materials will be available on the Company's website at www.transaltarenewables.com as of April 10, 2018. The Meeting materials will also be available under the Company's profile on SEDAR at www.sedar.com as of April 10, 2018. The website address for Notice-and-Access is www.meetingdocuments.com/astca/rnw. The use of this alternative means of delivery is more environmentally friendly as it will help reduce paper use and it will also reduce the Company's printing and mailing costs. Shareholders are reminded to review the meeting materials prior to voting. Please contact our transfer agent, AST Trust Company (Canada), toll-free at 1-888-433-6443 if you have questions about notice and access or need help downloading the Meeting materials.

A paper copy of the Company's audited consolidated financial statements for the year ended December 31, 2017 and related Management's Discussion and Analysis as at December 31, 2017 and for the years ended December 31, 2017 and 2016 will be mailed to the Company's registered Shareholders and beneficial Shareholders who previously provided standing instructions to receive such information. If you are a Shareholder who has not provided such instructions you will receive only a Notice-and-Access notification, the audited consolidated financial statements and related management's discussion and analysis, and a voting instruction form.

Requests for paper copies should be made as soon as possible, but must be received no later than April 26, 2018, in order to allow sufficient time for Shareholders to receive and review the meeting materials and return the proxy form or voting instruction form prior to the proxy deadline.

Shareholders who are unable to attend the meeting in person are requested to complete, date and sign the enclosed form of proxy (or voting instruction form, as applicable) and return it, in the envelope provided, to AST Trust Company (Canada), Proxy Department, P.O. Box 721, Agincourt, Ontario, M1S 0A1 so that it is received no later than 10:00 a.m. (Calgary time) on May 8, 2018.

VOTING INFORMATION

WHO CAN VOTE

If you held Shares of TransAlta Renewables at the close of business on March 26, 2018, you are entitled to attend the Meeting or any adjournment or postponement thereof and vote your Shares. Each Share represents one vote.

QUORUM FOR THE MEETING

To transact business at the Meeting, we must have at least two persons present in person, each being a Shareholder entitled to vote thereat or a duly appointed proxy, representing not less than 25% of the outstanding Shares entitled to be voted at the Meeting.

PRINCIPAL OWNERS OF TRANSALTA RENEWABLES SHARES

At the close of business on March 26, 2018, there were an aggregate of 250,512,210 Common Shares issued and outstanding. Our Common Shares trade under the symbol "RNW" on the Toronto Stock Exchange ("**TSX**").

To the knowledge of our directors and officers, the following sets out the only persons, firms or corporations, owning of record or beneficially, controlling or directing, directly or indirectly, 10% or more of the issued and outstanding Common Shares:

Name of Holder	Type of Ownership	Number of Voting Securities Owned	Percentage of Outstanding Voting Securities Owned
TransAlta Corporation Calgary, Alberta	Direct/Indirect	160,398,217 Common Shares ⁽¹⁾	64%

Notes:

- (1) Includes 60,646,375 Common Shares held by TransAlta Generation Partnership of which TransAlta is the manager. Effective August 1, 2017, 26,086,956 Class B Shares of TransAlta Renewables were converted pursuant to their terms into 26,382,853 Common Shares.

Pursuant to the terms of the governance and cooperation agreement between the Company and TransAlta dated August 9, 2013 (the "**Governance and Cooperation Agreement**"), the Board is currently comprised of six individuals, three of whom are appointed by TransAlta and three of whom are independent (pursuant to NI 52-110, as defined herein). TransAlta is entitled to nominate a majority of the directors of the Company for so long as the percentage of outstanding Common Shares of the Company beneficially owned directly or indirectly by TransAlta is not less than 35% of the issued and outstanding Common Shares of the Company. If the percentage of outstanding Common Shares of the Company beneficially owned directly or indirectly by TransAlta is less than 35% but greater than or equal to 10%, TransAlta shall be entitled to nominate its proportionate share of the directors of the Company (rounded up to the next whole number) based on the percentage of outstanding Common Shares of the Company beneficially owned directly or indirectly by TransAlta. Finally, irrespective of the percentage of outstanding Common Shares of the Company beneficially owned directly or indirectly by TransAlta, TransAlta is entitled to nominate one director of the Company for so long as the Governance and Cooperation Agreement is in effect.

Pursuant to the Governance and Cooperation Agreement, the nominees of TransAlta to the Board may be directors, officers or employees of TransAlta or its affiliates, or other persons, at TransAlta's discretion. Board nominees who are nominated by TransAlta who are directors, officers or employees of TransAlta or its affiliates are not entitled to any compensation from the Company by virtue of being a director of the Company, except as otherwise described herein. Subject to any requirements of the *Canada Business Corporations Act*, TransAlta is entitled to nominate for appointment or election to the Board a replacement director for any of the directors nominated by TransAlta who ceases for any reason to be a director of the Board, provided TransAlta remains, at that time, entitled to appoint such director. The chair of the Board (the "**Chair of the Board**") will be appointed by the Board and will be independent as determined in accordance with National Instrument 52-110, *Audit Committees ("NI 52-110")* of the Canadian Securities Administrators.

The Board has not adopted a "Majority Voting Policy" (as defined by the TSX) for the election of directors. The Board strongly believes that sound corporate governance is essential to the well-being of the Company. It is the Board's view that a Majority Voting Policy for the election of directors of the Company does not serve a useful purpose for the Shareholders at this stage given that TransAlta is presently a controlling Shareholder of TransAlta Renewables. As a controlling Shareholder with a majority of the voting shares, TransAlta will necessarily cast a majority of the votes for the election of the Company's directors.

REGISTERED SHAREHOLDER VOTING

You are a "Registered Shareholder" if your Shares are held in your name and you have a share certificate. As a Registered Shareholder, you may vote in person at the Meeting or by Proxy.

Attending the Meeting

If you attend the Meeting in person, it is not necessary to complete and return the Proxy. Please register with our registrar and transfer agent, AST Trust Company (Canada), when you arrive at the Meeting.

By Proxy

Voting by Proxy is a very easy way to vote. When you vote by Proxy you are giving someone else the authority to attend the Meeting and vote on your behalf and in accordance with your instructions (called your proxyholder). Shares represented by a properly executed Proxy in favour of the persons designated in the enclosed Proxy will be voted or withheld from voting on any ballot that may be called for in accordance with the instructions made on the Proxy, and, if the Shareholder specifies a choice with respect to any matters to be acted on, such Shareholder's Shares will be voted accordingly.

Allen R. Hagerman (Chair of the Board) and John H. Kousiniaris (President) have agreed to act as your proxyholder. If you appoint these proxyholders but do not indicate how you want to vote on the enclosed form, they will vote as follows:

- ***FOR electing each nominated director; and***
- ***FOR appointing the auditors.***

You may appoint someone else to be your proxyholder. This person does not need to be a Shareholder. To appoint somebody else as your proxyholder, cross out the printed names on the Proxy and insert the name of the person you wish to act as your proxyholder in the blank space provided. Please indicate the way you wish to vote on each item of business and your vote will be cast accordingly. Your proxyholder will be required to register with our registrar and transfer agent, AST Trust Company (Canada), when they arrive at the Meeting.

BOARD TENURE

The Company has not adopted term limits for directors on the Board or other mechanisms of Board renewal. Due in part to the Company being majority controlled, the members of the Board are of the view that the current Board is very efficient and effective and that term limits are not necessary.

CORPORATE CEASE TRADE ORDERS AND BANKRUPTCIES

Except as noted below, no director nominee is, as at the date of this Proxy Circular, or has been, within the past ten years before the date hereof, a director or executive officer of any other issuer that, while that person was acting in that capacity: (i) was the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation for a period of more than 30 consecutive days; or (ii) was subject to an event that resulted, after the person ceased to be a director or executive officer but that occurred while that person was acting in such capacity in the company being the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation for a period of more than 30 consecutive days; or (iii) within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Mr. Drinkwater was a director of Hollinger Inc. from August 2005 to June 2008. Mr. Drinkwater agreed to join the Hollinger Inc. board of directors at the request of a shareholder to deal with certain management misconduct. On August 1, 2007, Hollinger Inc. obtained an initial court order granting it creditor protection under the *Companies' Creditors Arrangement Act* (Canada) and made a concurrent application for a companion order under Chapter 15 of the United States Bankruptcy Code. Hollinger Inc. was the subject of several cease trade orders issued between 2004 and 2008, due to its failure to file financial statements on a timely basis, and Mr. Drinkwater became subject to certain such orders as a result of his appointment as a director. The management cease trade orders were revoked April 2007.

Mr. Drinkwater became an officer of Nortel Networks Corporation and Nortel Networks Limited on December 19, 2005. On June 24, 2011, the receiver filed an application with the Virginia State Corporation Commission for a final order approving the rehabilitation plan and acquisition of control and a final order terminating the rehabilitation. Following a hearing, the plan was approved on October 20, 2011 by the Virginia State Corporation Commission and, at a special meeting on December 15, 2011, the policyholders supported the plan of conversion following which Shenandoah Life Insurance Company exited receivership and is currently a subsidiary of Prosperity Life Insurance Group LLC.

GOVERNANCE

OUR GOVERNANCE PRACTICES

The Board is responsible for the stewardship of the Company. The Board has the statutory authority and obligation to act honestly and in good faith with a view to the best interests of the Company, including all of its stakeholders. The Board has absolute and exclusive power, control and authority over the property and affairs of the Company. The Board may delegate certain of those powers and authority that the directors, or independent directors, as applicable, deem necessary or desirable to effect the actual administration of the duties of the Board. Under the Management, Administrative and Operational Services Agreement dated August 9, 2013 between TransAlta and TransAlta Renewables, as amended (the "**Management Agreement**"), the Board has delegated to TransAlta, in its capacity as Manager under the Management Agreement, broad discretion to administer and manage the business and operations of the Company.

HANDLING CONFLICTS OF INTEREST

At TransAlta Renewables, we encourage and promote a culture of integrity and ethical business conduct by requiring that our officers and directors conduct their personal and business affairs in a manner that ensures that their private or personal interests do not interfere or appear to interfere with the interests of the Company. Our policies provide that each director and executive officer must comply with the disclosure requirements of the *Canada Business Corporations Act* regarding any material interest. If a declaration of material interest is made, the declaring director shall not vote on the matter if put to a vote of the Board. In addition, the declaring director and executive officer may be requested to recuse himself or herself from the meeting when such matter is being discussed.

Under the Management Agreement, in the event that the interests of TransAlta come into material conflict with the interests of the Company, TransAlta, as the Manager, shall give written notice to the Company setting out the particulars of the conflict, and the independent directors of the Company shall be responsible to make decisions relating to the conflict matter. The decision and any determinations made by the independent directors of the Company shall be the actions taken by TransAlta Renewables.

INSIDER TRADING

Our insider trading policy ("**Insider Trading Policy**") imposes restrictions on insiders of the Company and those in a special relationship with the Company with respect to trading in TransAlta Renewables shares. The guidelines, which fulfill our obligations to stock exchanges, regulators and investors, include the measures set forth below:

- Having quarterly and annual trading blackout periods when financial results are being prepared and have not yet been publicly disclosed. These blackouts extend to all employees of our Manager, who are engaged in the preparation of our financial results as well as to the officers and directors of the Company. The blackouts are effective from the first day following the end of a quarter or fiscal year to the close of trading on the second trading day after we issue the related news release or disclose our financial results;
- Publishing and communicating the dates for regular blackout periods and sending a monthly reminder to all reporting insiders of their obligations; and
- Requiring all insiders to pre-clear transactions.

WHISTLEBLOWER PROCEDURES

Our whistleblower procedures help uphold our strong values and preserve our culture of ethical business conduct. Our procedures are not limited to accounting, auditing and financial processes and instead provide means for employees of the Manager, contractors, Shareholders and other stakeholders to report ethical violations or any other matters they wish to bring to the attention of our Board. All submissions can be made directly to the chair of the Audit Committee, or any director who is a member of the Audit Committee. The Audit Committee (subject to its duties arising under applicable law, regulations and legal proceedings) will treat such submissions confidentially, and will ensure that a thorough and fair investigation is conducted.

THE BOARD'S ROLE

Our Board is responsible for stewardship and establishing our key policies and standards, including policies for the assessment and management of our risks. The Board has adopted general guidelines ("**Guidelines**") which provide a framework for how we conduct our business and which help meet our corporate governance responsibilities. These Guidelines include a general overview of the Board's role, a statement of key principles and policies applicable to the Board and its committees and a mandate that describes the Board's major responsibilities, goals and duties including its duty to monitor the Manager. We believe that these practices benefit all stakeholders and form the building blocks for long-term success. These Guidelines are reviewed annually by the Board to ensure that they reflect the most appropriate governance standards for the Company. Our Guidelines may be found in Appendix "A" to this Proxy Circular and on our website at www.transaltarenewables.com.

The Board has delegated to the President and senior management the responsibility for the day-to-day management of the business of the Company. In addition to those matters which must, pursuant to applicable laws and our by-laws, be approved by the Board, the Board has delegated to management the authority to approve expenditures within specified limits. Under the Management Agreement, the Board has delegated to TransAlta, as Manager, broad discretion to administer and manage the business and operations of the Company. TransAlta, in its capacity as Manager, provides and performs all general administrative and operational services in order to manage the business and affairs of the Company and its subsidiaries. The Board has retained responsibility for significant matters such as major changes to organizational structure, material acquisitions and divestitures, major capital expenditures, debt and equity financing transactions and approval of environmental policies.

BOARD COMMITTEES

Our Board has only one standing committee, the Audit Committee. The Audit Committee has approved a charter (the "**Audit Committee Charter**") which outlines the duties and responsibilities of the chair of the Audit Committee as well as those of the full committee. The Audit Committee Charter is available on our website at www.transaltarenewables.com and on SEDAR at www.sedar.com as an Appendix to our annual information form dated February 22, 2018. Our Board may also, as required, appoint a special committee of the Board, comprised of independent directors, to review or consider from time to time non-arm's length transactions.

The Board approved an amendment to the Audit Committee Charter in February 2018 in order to expand the mandate of the Audit Committee to provide for the identification and recommendation of individuals to the Board for nomination as members of the Board. Subject to the Governance and Cooperation Agreement, the Audit Committee shall:

- review, from time to time, the size, composition and profile of the Board, taking into account succession planning, geographical representation, disciplines, professional experience, strategy and direction of the Company and other matters it considers appropriate and which may affect the dynamics of the boardroom, and recommend to the Board any changes to the size, composition or profile of the Board as determined appropriate by the Committee;
- review and propose to the Board for approval, criteria for selecting new directors, after considering the competencies and skills the Board possesses, as a whole, the competencies and skills of each director, and the needs of the Company going forward, including its strategic direction, and determine from this review the competencies and skills that each new nominee should bring to the Board; and
- review annually the qualifications of person(s) proposed for election to the Board.

All Audit Committee members are independent and financially literate. The members of the Audit Committee together have experience in accounting, economics, finance and tax, insurance, investment banking, law and regulatory, mergers and acquisitions and the electricity industry.

The Audit Committee consists of three directors. No member of the Audit Committee is an officer or employee of the Company nor are they an officer or employee of the Manager. The Audit Committee complies with the independence and financial literacy requirements set forth in Part 3 of NI 52-110. Determinations as to whether the Audit Committee and each member of the Audit Committee satisfy the requirements of Part 3 of NI 52-110 are made by the Board.

The members of the Audit Committee are Kathryn B. McQuade (Chair), David W. Drinkwater and Allen R. Hagerman.

STRATEGIC PLANNING

Our Board also has oversight of our strategic planning process and monitors management's performance in executing on our strategy and meeting the objectives of our strategic plan. The Board meets on an annual basis for a comprehensive strategic planning session at which time it reviews and approves our strategic direction. The Board also receives updates on our strategic plan at regular Board meetings and from communications to the Board issued by the President.

RISK ASSESSMENT

Our Board is responsible for understanding the principal risks associated with the Company's business and for ensuring that the Manager has implemented appropriate strategies to manage these risks. In addition, the Company has adopted a code of conduct ("**Code of Conduct**") that sets out the key principles and policies governing our Company and, as discussed above, has adopted an Insider Trading Policy. These policies are reviewed annually by the Board. Our Code of Conduct is available on our website at www.transaltarenewables.com.

INTERNAL CONTROLS

The Board seeks assurance at least annually that our internal control systems and management information systems are operating effectively. The Board has delegated to the Audit Committee the responsibility for reviewing our quarterly and annual financial statements and, when required, for recommending them to the Board for approval. The Audit Committee is also responsible for overseeing the internal audit function carried out by the Manager.

DISCLOSURE AND COMPLIANCE

The Board has the responsibility to review the information prepared by the Manager and to satisfy itself that the financial performance of the Company is adequately reported to Shareholders and other relevant stakeholders (which may include regulators and governments, as well as the employees, customers and suppliers of operating businesses in which the Company and its subsidiaries and affiliates hold a material interest and the communities in which these businesses operate) on a timely and regular basis. In addition, the Board shall ensure that the financial results of the Company are reported fairly and in accordance with applicable laws and generally accepted accounting principles and shall review and ensure the timely reporting of any developments that have a significant and material impact on the value of the securities of the Company. To ensure the prompt disclosure of material information, the Company has adopted a disclosure policy. The disclosure policy requires the timely disclosure of information and a review and approval process by a disclosure committee, which is comprised of the senior officers of the Company, to ensure prompt and full disclosure of any material information.

DIVERSITY

Since the Company has no employees and has delegated the day-to-day management to TransAlta, the Company has not adopted a diversity policy. TransAlta has adopted a Board and Workplace Diversity policy, outlining its commitment to the hiring of diverse employees throughout the organization. The Company and TransAlta both recognize that a diverse mix of skills, experiences, backgrounds and gender at Board and officer levels enhances both the quality and effectiveness of our performance and is an important aspect to effective corporate governance. The mandate of the Audit Committee has also been expanded to specifically consider individuals from diverse backgrounds, having regard to gender, ethnicity, age, business experience, professional expertise, personal skills, stakeholder perspectives and geographic background in selecting candidates for the Board. These factors will be considered based on the direction of the Company and with the goal of creating a diverse board that together can provide insight, oversight and foresight to benefit the Company. Our Board is currently comprised of one female director (17%) and five male directors (83%).

INDEPENDENCE OF DIRECTORS

An independent director is a director who is independent of management and who has no direct or indirect material relationship or any other relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a member's independent judgment. In making this determination the Board adheres to the requirements of applicable Canadian securities laws and stock exchange rules. The Board also undertakes this determination upon the

appointment of any new director to the Board. Any former officer of the Company serving on the Board is considered to be non-independent for purposes of corporate governance until such time as the applicable regulatory cooling off period has been met and the independent directors determine that no direct or indirect material relationship exists, taking into consideration the former executive's duties and relationships for and with the Company.

INDEPENDENT CHAIR OF THE BOARD

The Board has chosen to separate the positions of Chair of the Board and Chief Executive Officer (or a person acting in such capacity). The Chair of the Board is independent from management and the Company. The role of the Chair of the Board is to effectively manage and to provide leadership to the Board.

The Chair of the Board, Mr. Allen R. Hagerman, is an independent director. Mr. Hagerman has never served as an executive officer of the Company, and the Board has affirmatively determined that he is independent.

MEETING WITHOUT MANAGEMENT OR NON-INDEPENDENT DIRECTORS

After each regularly scheduled meeting, as a regular item on each Board and committee agenda, the independent directors hold in camera sessions at which non-independent directors and members of management are not in attendance. Following such in camera sessions, the Chair of the Board discusses with the President any matters raised in these sessions which are relevant for the management and operations of the Company.

ORIENTATION AND CONTINUING EDUCATION

The orientation and continuing education of the directors is the responsibility of the Board. The orientation of directors or new directors is tailored to the needs of the individual and depends on the individual's area of expertise and prior experience. Orientation to date has included delivery of written materials, site visits and participation in meetings with senior management and with key employees of the Manager who can provide insight into the business or into the Company's operations. The focus of the orientation program is on providing new directors with (i) information about the duties and obligations of directors, (ii) information about the Company's business and operations, (iii) information about the expectations of directors (including, in particular, expectations of time and energy), (iv) opportunities to meet with management of the Company (in this case with employees of the Manager), and (v) access to documents from recent meetings of the Board.

The Board regularly receives continuing education pertaining to the Company's operations and regulatory and competitive environment. The Company has encouraged director participation in courses sponsored by the Institute of Corporate Directors (ICD) that cover topics that included cyber-security and corporate governance. The Directors have also attended several operating facilities, including the Summerview wind farms and TransAlta's Ghost hydro-facility. In 2017, the directors received a presentation providing an overview of the industry trends and competitive environment applicable to the Company.

FINANCIAL LITERACY

An individual is defined as financially literate if he or she can read and understand financial statements that are generally comparable in breadth and complexity of issues to those found in our financial statements. The Board has determined that all directors are financially literate according to this definition.

EXTERNAL CONSULTANTS AND OTHER THIRD PARTIES

If any individual director requires the services of an independent advisor to assist him or her with matters involving his or her responsibilities as a Board member, he or she may engage such an advisor at the expense of the Company, provided that he or she has first consulted with the Chair of the Board.

ATTENDANCE

We expect directors to attend all regularly scheduled Board and committee meetings. Members of senior management are also invited to attend Board meetings as required. We also expect our directors to attend our Company's annual meeting of Shareholders. In addition, should special meetings be required, we make every effort to schedule such meetings to accommodate the attendance of the majority of directors.

Succession Planning

The Chair of the Board has the responsibility to lead the Board in monitoring and evaluating the performance of the President and senior management, to ensure the accountability of the President, and to review management succession and development plans for the Company's senior management team.

Under the Management Agreement, substantially all of the management responsibilities and duties of the Company have been delegated to the Manager, including certain roles and responsibilities typical for a chief executive officer of a company. The Company may terminate the Management Agreement in the event that the Manager breaches or fails to observe or perform any of the Manager's material obligations, covenants or responsibilities under the Management Agreement, and within sixty (60) days after notice from the Company specifying the nature of such breach or failure, the Manager fails to cure such breach or failure if such breach or failure is reasonably remediable within such period, or if such breach or failure is not reasonably remediable within such period, the Manager fails to commence to take, within

such period, steps to remedy such default and to thereafter proceed diligently and as expeditiously as reasonably possible to cure or remedy such breach or failure.

BOARD EVALUATIONS

The members of the Board annually assess their performance both as a whole and as individual contributors to the Board. As well, the Audit Committee annually evaluates its performance. The evaluation process comprises both a written questionnaire and one-on-one interviews with the Chair of the Board. Specifically, each Director or Audit Committee member, as applicable, completes a written survey which is returned to the Corporate Secretary, who compiles the results on an anonymous basis. The results are presented in camera to the members of the Board or Audit Committee, as applicable. Each Director will also receive his or her respective peer review.

IDENTIFYING NEW CANDIDATES FOR THE BOARD

The responsibilities of the Audit Committee have recently been expanded to provide for the identification and recommendation of individuals to the Board for nomination as members of the Board. Subject to the Governance and Cooperation Agreement, the Audit Committee shall:

- review, from time to time, the size, composition and profile of the Board, taking into account succession planning, geographical representation, disciplines, professional experience, strategy and direction of the Company and other matters it considers appropriate and which may affect the dynamics of the boardroom, and recommend to the Board any changes to the size, composition or profile of the Board as determined appropriate by the Committee;
- review and propose to the Board for approval, criteria for selecting new directors, after considering the competencies and skills the Board possesses, as a whole, the competencies and skills of each director, and the needs of the Company going forward, including its strategic direction, and determine from this review the competencies and skills that each new nominee should bring to the Board; and
- review annually the qualifications of person(s) proposed for election to the Board.

Pursuant to the Governance and Cooperation Agreement, TransAlta and its affiliates are entitled to direct the Company to nominate up to a majority of the directors of the Company for so long as the percentage of outstanding Common Shares beneficially owned directly or indirectly by TransAlta is not less than 35% of the issued and outstanding Common Shares. If the percentage of outstanding Common Shares beneficially owned directly or indirectly by TransAlta is less than 35% but greater than or equal to 10%, TransAlta shall be entitled to nominate its proportionate share of the directors of the Company (rounded up to the next whole number) based on the percentage of outstanding Common Shares beneficially owned directly or indirectly by TransAlta. Finally, irrespective of the percentage of outstanding Common Shares beneficially owned directly or indirectly by TransAlta, TransAlta is entitled to nominate one director of the Company for so long as the Governance and Cooperation Agreement is in effect. The TransAlta appointees to the Board may be directors, officers or employees of TransAlta or its affiliates or other persons, at TransAlta's discretion. The Shareholders of the Company are entitled to elect the directors of the Company.

The Board has not adopted a formal retirement policy for its directors; rather, the Company relies on robust performance evaluations (described above) and assessments of independence rather than arbitrary term limits to ensure proper Board composition. This approach to Board tenure is flexible enough to account for the contributions of valuable, long-tenured directors. The Chair of the Board is appointed for a three-year term, contingent upon being elected annually by the Shareholders. The Chair of the Board will normally serve no more than two three-year terms, subject to special circumstances arising.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee provides assistance to the Board in fulfilling its oversight responsibilities with respect to: (i) the integrity of the Company's financial statements and financial reporting process; (ii) the systems of internal financial controls established by the Manager; (iii) the risk identification assessment conducted by the Manager and the programs established by the Manager in response to such assessment; (iv) the internal audit function; (v) compliance with accounting and finance based legal and regulatory requirements; and (vi) the external auditors' qualifications,

independence and performance. In so doing, it is the Audit Committee's responsibility to maintain an open avenue of communication between it and the external auditors, the internal auditors, management and the Manager of the Company.

The function of the Audit Committee is oversight. Management and the Manager are responsible for the preparation, presentation and integrity of the interim and annual financial statements and related disclosure documents. Management and the Manager are also responsible for maintaining appropriate accounting and financial reporting policies and systems of internal controls and procedures to comply with accounting standards, applicable laws and regulations which provide reasonable assurances that assets are safeguarded and transactions are authorized, executed, recorded and reported properly.

COMPENSATION DISCUSSION AND ANALYSIS

REPORT ON DIRECTOR COMPENSATION

Philosophy and Approach

The Board is responsible for director compensation. The compensation practices for directors take into consideration:

- the size of our business and complexity of our industry;
- the retention and attraction of qualified individuals to serve as directors on our Board;
- the provision of competitive compensation; and
- the importance we place on aligning directors' compensation with the interests of our Shareholders.

Components of Compensation

For the financial year ended December 31, 2017, each non-management director was eligible to receive the following compensation:

Board Retainers	
Non-management Director Annual Retainer (payable in cash or DSUs or both)	\$70,000
Board Chair Retainer Fee	\$50,000
Committee Annual Retainer Fee	
Audit Committee Member Annual Retainer Fee	\$5,000
Audit Committee Chair Retainer Fee	\$20,000
Meeting Fees	
Board Meeting Fee	\$1,500
Audit Committee Meeting Fee	\$1,500
Travel Fee	\$1,500

On October 30, 2017, the Board approved changes to director compensation effective January 1, 2018, which increases the non-management director annual retainer amount from \$70,000 to \$100,000. The annual Board Chair retainer fee amount of \$50,000 (in addition to the Board retainer), the annual Audit Committee Chair retainer fee amount of \$20,000 and the additional annual retainer amount of \$5,000 to members of the Audit Committee will not change. The meeting and travel fees of \$1,500 continue to apply.

Deferred Share Units

In October 2013, the Board adopted a Deferred Share Unit Plan (the "**DSU Plan**"), pursuant to the terms of which independent directors of the Company will have a choice to receive all or part of their compensation in deferred share units ("**DSU**"). Each DSU is a notional share that has the same value as one common share of TransAlta Renewables. DSUs may not be redeemed until the director leaves the Board. As a result, directors maintain an ongoing equity stake in the Company throughout their Board service.

If directors elect to participate in the DSU Plan, DSUs are allocated to their accounts on the 15th day of the last month of each compensation quarter, being March, June, September and December, based on the closing price of a TransAlta Renewables common share on the TSX on that date. The DSU account of each director is also credited with units equivalent to cash dividends based on the closing price of a TransAlta Renewables common share on the same date as dividends are paid on our Common Shares.

Upon retirement from the Board, the retiring director will receive a cash amount equal to the number of DSUs held in his or her account calculated on the basis of the market value of a TransAlta Renewables common share at the time the amount is payable, less applicable taxes. At December 31, 2017, the notional value of DSUs outstanding to directors was \$949,525, based on the number of DSUs outstanding multiplied by the closing price of a TransAlta Renewables common share on the TSX on December 29, 2017 (the last trading date of 2017) of \$13.39.

Share Ownership Requirements of Directors

The Board believes that directors' compensation should align with Shareholders' interests. As a result, the Board adopted share ownership requirements for non-management directors requiring them to acquire and hold a minimum of three times the director's base annual cash retainer in Common Shares or DSUs within three years of joining the Board, or the effective date of the policy, whichever is later.

In addition, non-management directors are required to acquire and hold Common Shares or DSUs equivalent in value to one time their annual cash retainer within one year of joining the Board or the effective date of the share ownership policy, whichever is later.

No Hedging Policy

Directors are prohibited by our Insider Trading Policy from purchasing financial instruments including equity swaps, collars, prepaid variable forward contracts or exchange funds designed to hedge or offset a decrease in market value of their equity holdings.

For the year-ended December 31, 2017, the Company's Named Executive Officers ("NEOs") were:

- John H. Kousiniotis, President;
- Brett M. Gellner, former President and Designated Chief Executive Officer;
- Donald Tremblay, Chief Financial Officer;
- Aron Willis, Senior Vice-President, Gas and Renewables;
- Todd Stack, Managing Director and Corporate Controller; and
- Brent Ward, Managing Director and Treasurer.

These NEOs are also senior officers and employees of TransAlta. Management and administrative services required by the Company are provided by TransAlta pursuant to the Management Agreement.

The NEOs and the other officers of TransAlta Corporation do not receive direct compensation from the Company in respect of the services they provide to the Company, as this is provided for in the G&A Reimbursement Fee (as defined herein). The G&A Reimbursement Fee has been calculated assuming a fixed fee based on the services provided by the NEOs.

The compensation of the NEOs is determined and paid exclusively by TransAlta Corporation in their capacity as employees of TransAlta. The Company does not grant any share based or option based awards nor does it maintain any equity or non-equity incentive compensation plans, pension plans or other benefit plans for its executive officers.

MANAGEMENT, ADMINISTRATIVE AND OPERATIONAL SERVICES AGREEMENT

TransAlta, on a sole and exclusive basis, provides us with all the general administrative services as may be required or advisable for the management of the affairs of the Company pursuant to the Management Agreement.

The management services provided by TransAlta under the Management Agreement include, but are not limited to: (i) ensuring that we comply with our continuous disclosure and other obligations under Canadian securities laws; (ii) managing our financing, borrowing and investing activities; (iii) developing, implementing and monitoring our strategic plan; (iv) providing us with investor relations services including the calling and holding of all meetings of our Shareholders; (v) computing any dividends to our Shareholders and overseeing the payment thereof; (vi) undertaking all required acts and responsibilities in connection with the acquisition and disposition of our assets and property; (vii) providing accounting and bookkeeping services, including for the preparation of our annual and interim financial statements and the preparation and filing of all tax returns; (viii) providing information technology services and making available all information technology equipment as may be reasonably necessary; (ix) managing any litigation and other legal services; (x) providing risk management services; (xi) providing office space, equipment and personnel as may be reasonably necessary; (xii) arranging for audit, legal and other third party professional and non-professional services; and (xiii) generally providing all other services as may be necessary, or requested by us, for the management and administration of TransAlta Renewables.

The operational and maintenance services provided by TransAlta under the Management Agreement include, but are not limited to: (i) administering and causing us and each of our operating subsidiaries (the "**Operating Entities**") to perform and satisfy our and their obligations under all material contracts; (ii) providing or securing operational, management and maintenance services; (iii) providing procurement and logistical services; (iv) providing engineering, technical and evaluation services; (v) providing environment, health and safety services; (vi) ensuring proper training of personnel and the provision of necessary equipment and services; (vii) obtaining and maintaining all permits, authorities and consents required for the conduct of business by the Operating Entities; and (viii) generally providing all other services as may be necessary or requested for the operation and maintenance of the assets held by the Operating Entities.

Pursuant to the Management Agreement, TransAlta has agreed to: (i) perform all services under the Management Agreement in compliance with applicable laws, (ii) observe or cause to be observed and performed on our behalf, in all material respects, all agreements from time to time entered into for and on our behalf and (iii) not commingle the funds of TransAlta Renewables with any party. In the exercise of its powers and authority under the Management Agreement, TransAlta is required to exercise the powers and discharge its duties thereunder honestly, in good faith and in the best interests of the Company and in connection therewith shall exercise that degree of care, diligence and skill that a reasonably prudent manager of a corporation in Canada, having responsibilities of a similar nature to those under the Management Agreement, would exercise in comparable circumstances. TransAlta is prohibited from entering into or committing to any transaction which, in accordance with Applicable Laws (as defined in the Management Agreement), or pursuant to the requirements of any other written agreement between the Company and TransAlta or any of their respective subsidiaries or affiliates, requires the approval of our independent directors or the approval of our Shareholders, unless such approval is first obtained.

TransAlta and its personnel shall devote as much time as is reasonably necessary for the proper discharge of its services under the Management Agreement. We expressly consent in the Management Agreement to TransAlta and its affiliates (other than us) and their respective officers, directors and employees engaging in any business or activities whatsoever, including those that may be in competition or conflict with our business and/or our interests; provided that in the event of a material conflict between our interests and the interests of TransAlta, TransAlta will be required to provide written notice to us setting forth particulars of such conflict and, thereafter, our independent directors shall be responsible to take all such actions and make all such decisions relating to such matter.

In connection with the services provided under the Management Agreement, we pay TransAlta an annual fee (the "**G&A Reimbursement Fee**"), which fee is meant to cover TransAlta's management, administrative, accounting, planning and other head office costs associated with providing services to us under the Management Agreement. The G&A Reimbursement Fee was initially set at \$10,000,000 per annum and is adjusted annually for changes in the Consumer Price Index ("**CPI**") and increases or decreases of five per cent of the earnings before interest, tax, and depreciation associated with additions or divestitures of assets. The G&A Reimbursement Fee is payable in equal quarterly installments. On January 6, 2016, the G&A Reimbursement Fee was increased by approximately \$5 million for 2016,

which reflects the impact of the acquisition of the economic interest in the Canadian Assets and CPI adjustments. During 2017, we paid TransAlta a development fee of \$1,000,000 upon signing the power purchase agreement with New Brunswick Power for the Kent Hills 3 project. We will pay a further fee of \$2,000,000 to TransAlta upon achieving commercial operation of Kent Hills 3 in lieu of the annual five per cent of incremental EBITDA that would otherwise be paid pursuant to the Management Agreement.

The G&A Reimbursement Fee is reviewed periodically, and in any event no less than once every five years, to consider, in good faith, whether any adjustments to the G&A Reimbursement Fee are required to reflect changing economic circumstances, regulatory requirements and/or the additional or reduced, as the case may be, time, effort and expense in administering our asset base.

In addition to the G&A Reimbursement Fee, we also reimburse TransAlta for all out-of-pocket and third party fees and costs, including salaries, wages and benefits associated with managing and operating the assets held by our Operating Entities not captured by the G&A Reimbursement Fee. We directly incur and are responsible for any costs associated with (i) insurance, (ii) compensation for our independent directors, (iii) direct engagement of third party experts for assessing or valuing a growth opportunity, (iv) third party audit and legal fees, and (v) all other costs associated with being a publicly traded reporting issuer.

The reimbursement of expenses to TransAlta, including through the G&A Reimbursement Fee, or its affiliates is not intended to provide TransAlta or its affiliates with any financial gain or loss.

TransAlta, its affiliates and associates and each of their respective directors, officers and employees are not, either directly or indirectly, liable, answerable or accountable to the Company or any of our Shareholders, for any loss or damage resulting from the performance or non-performance of management services (including any mistake or error of judgment), unless such loss or damage resulted from the fraud, wilful default or gross negligence of such party.

Each of the Company and TransAlta, and their respective directors, officers and employees, are indemnified by the other party in certain circumstances arising under the Management Agreement.

The Management Agreement has an initial 20 year term; provided, however, that the Management Agreement shall be automatically renewed for further successive terms of five years after the expiry of the initial term or any renewal term, unless terminated by either party not less than 180 days prior to the expiration of the initial term or any renewal term, as the case may be. The Management Agreement may be terminated by: (a) mutual agreement; (b) the Company upon the occurrence of a material default by TransAlta; and (c) TransAlta (i) upon the occurrence of a material default by the Company or (ii) upon a "Change of Control" of the Company, being the acquisition by any person or group of persons acting jointly and in concert (other than us and our affiliates) of more than 50% of the issued and outstanding Common Shares. In addition, the Management Agreement may be terminated by the Company by a majority vote of our independent directors at any time following TransAlta's direct and indirect ownership in the Company falling below 20%.

The head office of the Manager, TransAlta, is 110 – 12th Avenue S.W., Calgary, Alberta, T2R 0G7. - Notes:
- (1) Values reported are adjusted for the number of megawatts under management for the Company versus the total megawatts of TransAlta.
 - (2) Shares awarded are shares of TransAlta Corporation, not of TransAlta Renewables.
 - (3) In 2016 and 2017, TransAlta granted options to each NEO above except for Mr. Stack and Mr. Ward. The Black-Scholes option valuation method was used and the assumptions and calculated fair value were as follows:

	Grant date	Grant price	Term	Risk-free rate	Volatility	Dividend yield	Value per option
2017	March 7, 2017	\$7.25	7 years	1.38%	27.30%	2.21%	\$1.62
2016	February 22, 2016	\$5.93	7 years	0.93%	26.08%	2.70%	\$1.11

The calculated fair values of \$1.11 in 2016 and \$1.62 in 2017 represent 18.7% and 22%, respectively, of the grant prices. This is above the Company's minimum requirement of 12%, at which point 12% of the grant price would have been used to determine the fair value.

- (4) All other compensation comprises amounts paid to the NEOs with respect to auto allowance, perquisite, and, for Mr. Kousiniotis and Mr. Tremblay only, additional life insurance.
- (5) Mr. Kousiniotis was appointed President of the Company on November 2, 2017, prior thereto he served as the Corporate Secretary since October 30, 2015. The compensation for 2015 reflects the actual amounts attributed to the Company for the period October 30, 2015 to December 31, 2015.
- (6) Mr. Gellner resigned as President and Designated Chief Executive Officer of the Company on November 2, 2017. The compensation for 2017 reflects amounts attributed to the Company commencing on January 1, 2017 to November 2, 2017.
- (7) Mr. Tremblay was appointed Chief Financial Officer of the Company on September 14, 2015. The compensation for 2015 reflects the actual amounts attributed to the Company for the period September 14, 2015 to December 31, 2015.
- (8) Mr. Willis was appointed Senior Vice-President, Gas and Renewables of the Company on January 31, 2017. The compensation for 2017 reflects the actual amounts attributed to the Company for the period January 31, 2017 to December 31, 2017.
- (9) Effective February 1, 2017, Mr. Stack ceased acting in the office of Treasurer and was appointed to the office of Corporate Controller. Negative pension value reflects the fact that Mr. Stack ceased participating in a Supplemental Pension Plan of TransAlta.
- (10) Mr. Ward was appointed as Managing Director and Treasurer of the Company effective May 4, 2017. The compensation for 2017 reflects the actual amounts attributed to the Company for the period May 4, 2017 to December 31, 2017.

GENERAL GUIDELINES FOR THE BOARD

A. INTRODUCTION

The Board of Directors (the "**Board**") is responsible for the stewardship of TransAlta Renewables Inc. (the "**Company**"). The Board has the statutory authority and obligation to act honestly and in good faith with a view to the best interests of the Company, including all of its stakeholders. The Board has absolute and exclusive power, control and authority over the property and affairs of the Company. The Board may delegate certain of those powers and authority that the directors, or independent directors, as applicable, deem necessary or desirable to effect the actual administration of the duties of the Board. The responsibilities set forth herein are subject to the Management, Administrative and Operational Services Agreement (the "**Management Agreement**"), which appoints TransAlta Corporation (the "**Manager**") the Manager for the Company and grants the Manager broad discretion to administer and manage the business and operations of the Company.

B. BOARD ORGANIZATION AND MEMBERSHIP

1) Independent Chair of the Board

The Board has chosen to separate the positions of chair of the Board (the "**Chair**") and Chief Executive Officer (or a person acting in such capacity) (the "**CEO**"). The Chair is independent from management and the Company. The role of the chair is to effectively manage and to provide leadership to the Board.

2) Independence of Directors

An independent director is a director who is independent of management and who has no direct or indirect material relationship or any other relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a member's independent judgment. In making this determination the Board adheres to the requirements of Canadian securities and stock exchange rules and regulations. The Board also undertakes this determination upon the appointment of any new director to the Board.

Any former officer of the Company serving on the Board is considered to be non-independent for purposes of corporate governance until such time as the applicable regulatory cooling off period has been met and the independent directors determine that no direct or indirect material relationship exists, taking into consideration the former executive's duties and relationships for and with the Company.

Any Board member may suggest the inclusion of additional items on the agenda.

A majority of the members of the Board, present in person or by telephone or other telecommunication device that permits all persons participating in the meeting to speak to each other, shall constitute a quorum.

3) Meetings and In Camera Meetings
